

## **Jerónimo Aranda Barois**

[jeroaranda@gmail.com](mailto:jeroaranda@gmail.com)  
<https://jeroaranda.github.io>  
+52 1 55 51565749

### ***Instituto Tecnológico Autónomo de México [ITAM]***

Bachelor of Applied Science (B.A.Sc.) in **Applied Mathematics**  
Bachelor of Engineering (B.Eng.) in **Computer engineering**.  
Expected Graduation Date: December 2019  
Working on undergrad [thesis](#) on **liquid brains** and last 3 courses.  
Grade Point Average: 8.8 out of 10 (GPA 3.52)  
**Spanish** and **French** (native), **English** (advanced, **IELTS** and **CAE**).

### ***Australian National University [ANU]***

Exchange student for 6 months. Courses in **computer vision**,  
**artificial intelligence**, **dynamic systems** and **statistical**  
**inference**.

#### **TECHNICAL SKILLS**

##### **Programming Languages:**

- Python (Numpy, Pandas, Scikitlearn, openCV, Matplotlib and I love Jupyter notebooks!)
- Java
- Matlab
- SQL
- git

##### **Mathematics and computing:**

- Optimization and large scale modelling.
- Linear Algebra and Statistics.
- Interested in cross domain information processing as **NLP**,  
**CV**, **AI**, **ML**, **visualizations** and **ecology**.

#### **WORK EXPERIENCE**

- 06/19-07/19 **Morgan Stanley Capital International inc.**  
Summer research intern working with a **CNN NLP** model, I did some model improvements, performance tests and product development. Modelling was about detecting **ESG** exposure metrics on government **10K** documents.
- 08/19-to date **Data consultant at OpenBlender**  
Developing Jupyter notebook use cases for OpenbBlender. **Recommender system** and **NLP Bitcoin price predictor** based on headlines.
- Summer of 2018 **Cherry picker**  
Did 2 months of **piece work** cherry picking in the Canadian outback near **Vancouver**.
- 03/17 -5/17 **Food delivery bike rider at Deliveroo**  
Delivered food bike riding in the Australian capital of **Canberra**.

## DEVELOPED PROJECTS

Fall 2019	<b><a href="#">Cara a Cara</a></b> : Memorial installation that shows the <b>face</b> of the Mexican disappeared person that most resembles yourself from a 2500 image database we <b>scrapped</b> . Includes other strong <b>fact checking</b> and a sensitive <b>VR Oculus Go</b> experience designed for <b>reflection</b> and <b>empathy</b> . Developed in <b>Flask</b> , <b>RPI</b> and <b>Python</b> as social work at <a href="#">DataLabITAM</a> . The installation is touring around different venues as universities, museums and festivals.
Current	<b>Writer at Towards Data Science</b> : <i>Visual exploration of Mexico city public bike sharing system (<a href="#">ecoVIZ</a>)</i> , and <i><a href="#">What moves Bitcoin?</a></i> . 2 <b>peer reviewed</b> articles focused on visualizing information using ML and data science.
Summer of 2019	<b>COSAbot</b> : Image processing <b>bot</b> in twitter. Scrapes images, or receives them as a <b>twit</b> , then filters them with visually appealing mathematical transformations and reposts them. <b>Twit</b> him something.
02/17-to date	<b>Information processing Jupyter notebooks</b> : Implemented some tools for <b>computer vision</b> , <b>nlp</b> , <b>data science</b> , and other topics. <a href="#">Clone</a> the notebooks.
03/18-05/18	<b>Leather shoes</b> : Bought some leather and did 2 pairs of <b>simple</b> and <b>functional</b> leather shoes.

## AWARDS AND LEADERSHIP

- First place in data visualization contest of Mexico city public bike system ECOBICI by **CIMAT**, check the [report](#).
- "Beca Generación Bicentenario" High Academic Achievement Scholarship through high school and university honoring the 200 **Mexico** national anniversary, Nacional Monte de Piedad, 2010.
- Contestant at **ACM-ICPC** Mexico & Central America regional tournament, which was held at Guadalajara, Mexico, 2015
- **90%** Merit Based Scholarship, **ITAM**, 2014
- Member of the ITAM Applied Mathematics student association, 2015.
- Triathlon contestant in the Mexico **National Olympiads**, Veracruz, 2014.
- Half IronMan(triathlon) and half marathoner.
